

www.flabbythings.org 1 live in it

Dead butter out of the fridge

1 put myself in it

ı live in it A certain time

ı can do it

it doesn't scare me

overcooked pasta out of the water

it doesn't crack and there's no emptiness inside

overcooked by the boiling water

I live in it for a certain time

so now i stroll around

with the sound of water in my ears

1 was born in 1965 with no problem; 1 would have had a problem if 1 had been born in 1965,	Only in 1965 ı could have been born with or without a problem
it was not possible that i should have	My mother would have delivered a mule
been born in 1964,	in 1966 or a pure spirit in 1964,

ın 1964 ı was still a pure spirit,	it had to be January or February or March 1965 before my mum and my dad could throw me into flesh
ı was thrown into flesh in January,	And 1 was born into human flesh
February or March 1965,	in November 1965,

ı am human in my flesh because thrown in January, February or March 1965,	and born the same year in November,
ı would have had a mule's body in 1966, 1	if i had been born in 1966,

I

1 would have had a cat's body if 1 had been born in June, July 65, The spirit of 1 would have been thrown into a mule's body in 1966,

A cat's body in June July 65,

i received a human body when my father, mother called me to the human flesh,

ı remember well when dad mum called to the human flesh,	ı remember been called in January February or march 65 by my dad and my mum to the human flesh,
The soul that was my dad mum called me to earth,	ı remember at that time been called upon by human a mule's and a cat's flesh,

ı remember at that time ı was very	But the spirit of my dad of my mum
demanded,	betrayed me,
And 1 received a human body without asking,	ı was lent a human body without asking,

ı fell on to the earth without asking,	ı came to earth in 1965 with a human body that has not been called back yet,
ı received it without a problem as soon	ı will give it back later when ı will
as January or February or March 65,	return to the world, the state of the
1:	world from which ı was taken,

That 1 never left crying,	That 1 left one day in 1965 through the will of my father and of my mother,
From the body and the flesh of my dad and my mum,	For it is the body and the flesh that call the flesh and not the spirit of the fathers and mothers

1 love Nathalie Toledo

But 1 also love to lie back to her

To sleep 1 love to lie back to back 1 cannot sleep if 1 don't lie back to her

My best position to sleep is to lie back to her	we sleep together on our side
we cannot sleep together on our	we need our side to sleep
stomach or on our back	But not the same one

we sleep neither on the same side Nor on the same side of the bed i sleep on the left side Nathalie on the right side

we must lie back to back at the same time

if we change bed side we are facing each other

our knees touch

we exchange breath

we prefer to rest

we prefer to rest back to back

we prefer to sleep back to back

we feel secure sleeping back to back

we don't kick our feet or knock our knees

we sleep back to back in peace

our sleep is peaceful

it is the best way to sleep

Experience taught us that it's the best

we prefer the best to any other

The best way to rest is this way

we wake fit and well this way

The next day we can crack to work

The next day we do not have a lifeless face we have a lifeless face when we sleep on our stomach, our back or when our knees touch

> it often happens that we have a lifeless face

ideally we prefer to not have it but we do have it we cannot force ourselves to sleep back to back

sometimes we really need to see each other's face
